

The Story Cube Storm

Easy start · Either · Grown-up nearby · Ages 5–10 · 15 min

Brought to you by Yuna — “Every good adventure starts on a page.”

Make three cubes, roll them, and tell the story you are given rather than the one you planned.

WHAT YOU NEED

- Paper or thin card
- Safety scissors
- Tape or glue
- Markers
- Pencils

BEFORE YOU START

A grown-up can help with the cube folds if the card is stiff.

How to make it

- 1 Cut out three cube nets, or fold three small paper boxes.
- 2 On cube one, draw six characters. On cube two, six places. On cube three, six problems.
- 3 Fold and tape all three into cubes.
- 4 Roll all three. You now have a character, a place, and a problem you did not choose.
- 5 Tell the story out loud in under a minute. No stopping to think, no starting over.
- 6 Roll again and hand the cubes to somebody else.

TALK ABOUT IT

Which roll gave you the hardest combination, and how did you make it work anyway?

TRY THIS TOO

Add a fourth cube with six objects on it, and make the object solve the problem.

DID YOU KNOW? · WORDS & STORIES

A story needs a beginning, a middle, and an end. The beginning tells us who and where. The middle is where the problem shows up. The end is where something changes. Once you know those three parts, you can build a story out of almost any three things.
